

 OXFAM Jan 17 2016

62 people (53 men and 9 women) own as much wealth as the poorest half of the world's population. 1% of world population = 70 Mio people own more than 99%. Their fortunes have grown since 2009 by 44%

SCIENTIFIC AMERICAN

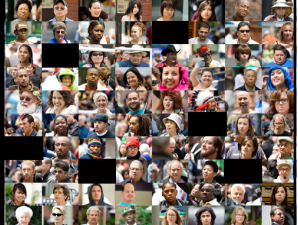

The Evolution of Cooperation
Competition is not the only force that shaped life on earth

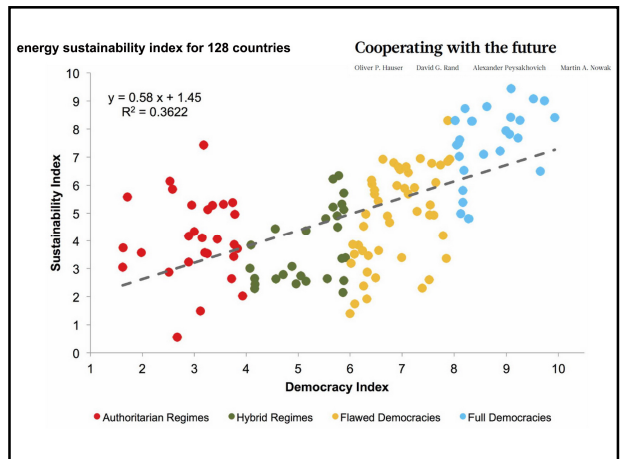

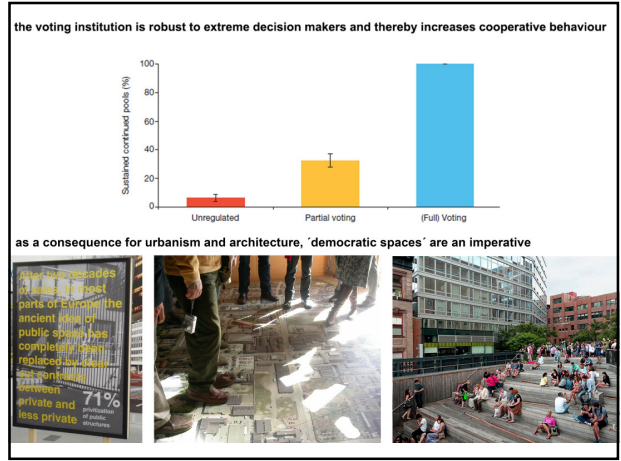

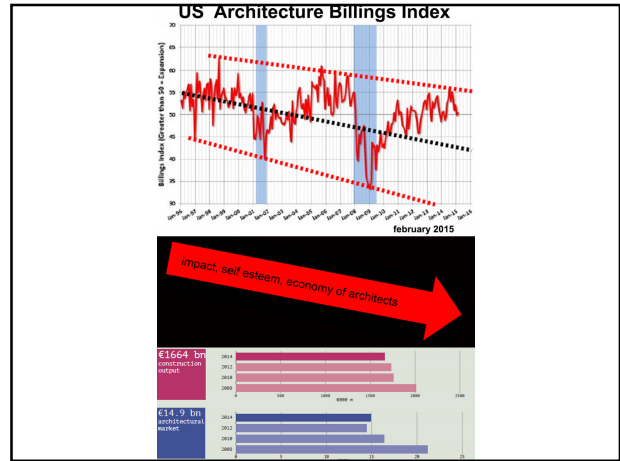

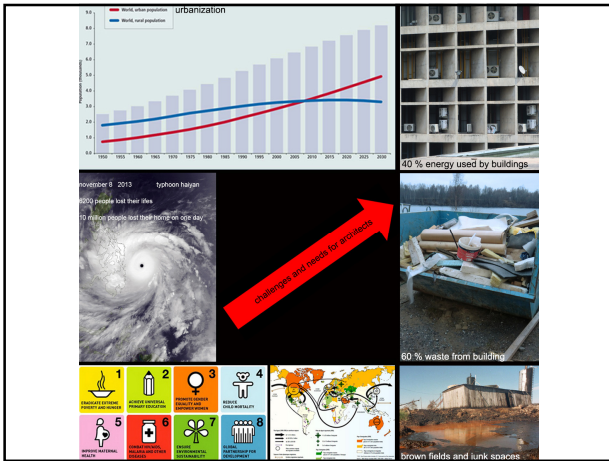

95 % of games after 1 round empty pot

independent of nationality, education, social status

but: small minority took most !

Thank you !
