'Gegenstand'

- an exhibition presented by Entreentre

Triftstraße 19A, 06114 Halle (Saale), Germany

May the 21st to June the 11th 2016

Opening hours: Wednesdays 5-7 pm and Saturdays 12-2 pm

Opening May the 21st 2pm to 5pm

The exhibition gathers objects, architectural models and spatial fragments. The collection of works reflects diverse approaches to architecture and art and points towards other ways of proposing space. Through the juxtaposition of the artefacts various spaces and locations are linked in and to the site. In-betweens or even formal negative spaces of shifting scales are superimposed, and thinking through matter as well as loss or gain of aura in production and reproduction techniques are at stake.

The groundfloor at Triftstraße 19A is a project space that is owned and run by the architects Charlotte Erckrath and Maik Ronz. The project space is at the same time an exhibition space, a workshop and an on-going poetic restoration project, where space and textures are apparently ever changing. This exhibition adds to the space as gesamtkunstwerk and becomes part of the architectural situation for a while.

Subsequent to the exhibition Entreentre will publish a printed pamphlet on places and auras. The pamphlet will be published and launched in Copenhagen in October 2016.

Participating architects and artists: Peter Bertram (DK), Byen Sover (DK), FOS (DK), Gamborg/ Magnussen (DK), Maya Lahmy (DK), Ann Lislegaard (NO/ DK), Samantha Lynch (CA/ UK), Paul Nicholas (AUS/ DK), Rene Schmidt (DK), Ben and Sebastian (DK/ UK/ DE), Norbert Palz (DE) and Frederik Petersen (DK/ UK).
